I'd like to hold you close
Make you feel safe
Not so afraid of yourself
If we have to part so it shall be
I'd like to help yo suffer less
Not be so locked up in your thoughts
Afraid of love and all under the sun

I'll hide out in your space
Emptiness on my face
I'll be keeping you safe
When you're cold and alone
Until you come out and play

I'd like to know you more
Tell you you're fine
Even though you're not
When you worry so much
It makes me want to cry
Fragile like the leaves come fall
Red yellow gold
I love them all
I guess its just the way we love
I'll hide out in your space
Emptiness on my face
I'll be keeping you safe
When you're cold and alone
Until you come out and play

Here I am I don't wanna come out
Null to the bone, I don't wanna come out
I've been dead and I wanna come out
Call my name cause I wanna come out
Here I am and I wanna come out
Null to the bone, I don't wanna come out
I've been dead and I wanna come out
Call my name cause I wanna come out

I'll hide out in your space
Emptiness on my face
I'll be keeping you safe
When you're cold and alone

Until you come out and play
