Make your garden grow
White bird
Dream out loud doe
While we send her out to you

Cold is the wind on
Your blue wing

We don't stand a chance
We're white birds

When you come
I'll crawl to your perch
When you come
I'll crawl to your perch

Sending love to you
It's a lovely thing
How we found a pearl
Through wind worn hell swells cracked
Shells melt
As we find our world

When you come I'll crawl
To your perch
When you come I'll crawl
To your perch

Sending love to you
