Closer than a girl can get to trouble  
If she hasn't yet got in it

It started out like any show  
Up from the dark to the light's warm glow  
Did you hear the dedication  
When I came up on the stage  
And you came on lion  
All courageous  
And I stepped up to your cage  
Just to see if we would go  
I crossed the bridge  
I thought you'd know

Now my sun is up  
Already hot  
With two rays on  
Two straying thoughts  
But each one warm to make me glow  
Or burn me if I'm not careful  
It's not hard  
It's too easy  
I get it and I get to be  
Closer than a girl can get to trouble  
If she hasn't yet got in it

So now can I step lightly back between  
Where you are and where I've been  
Back into that thing we do  
Where it's me and it's just you  
And it's not hard  
It's too easy  
I get it and I get to be  
Closer than a girl can get to trouble  
Without getting in it
