Now, now, now, come now
You don't need to be so bluff around the edges anymore

Now, now, now, come now
You don't need to get so hot under the car anymore

Now, now, now, lose out
We don't need to be so quick to point fingers anymore
Now, now, now, lose out
We don't need to leave it out, we found it anymore

Drop the act
It just shows your weakness
Behind your back there are loads of weaknesses
Get your manners
Expose your weakness
It's a fine, fine time to come clean

No, no, no, not now
We don't need to dance like they're all partners anymore
No, no, no, not now
We don't need to fake like we're cold-hearted anymore

Drop the act
It just shows your weakness
Behind your back there are loads of weaknesses
Blow your head off
Expose your weakness
It's a hard, hard thing to come clean.
