In square room
They're going a human without illusions
Sad rains on sad faces
Is that what we come to

Is the world go
This slow ball moving nowhere
Ends gone and cold
The wind stops the clouds going all alone

Oh oh oh oh oh oh
I know I can see those
Oh oh-oh oh oh oh

Remember those evenings together
We both believed in red weather
Sultry moons we had it then

But somewhere maybe nowhere
We lose our way in the shock of there
The hungry dances in the past
What does it fade so fast

Oh oh oh oh oh oh
I know I can see those
I know I can see those
I know I can see those

Oh oh oh square room
Oh oh oh square room
They don't listen they don't care
If a man is in despair

He walks along in long year
The vision of one with one
And you still move me
You undo me like you've always done

But I realize now
When I met you other words now
Just you and me just you and me

To the end of me
