

## Masquerade

### "State Of Grace"

Visit "[State Of Grace](#)" on [MotoLyrics.com](http://MotoLyrics.com)

It's on the news now everyday  
The common market's on display  
The ancient laws of yours and mine  
They're getting harder to define

Unite the nations under oath  
Believe in economic growth  
Control and welfare is a need  
It's in the nature of our greed

A rich man's will to dominate and trade  
The poor man's fall for every renegade

If you want more than yesterday  
Become a governmental slave  
And if you fear another war  
Become the legislators whore

World domination is a quest  
Some lose while others will be blessed

This is the one and only way  
Some always win, some always pay

A rich man's will to dominate and trade  
The poor man's fall for every renegade  
Democracy, hypocrisy, political rage

Confederate and confiscate  
New order revolution, evolution state  
Discriminate and separate  
A better constitution, resolution state  
A state of grace

It's on the news now every day  
The state of welfare's on display  
And from the liberators voice  
We're made to believe we have a choice
