I see a man of reason
I see his conscience plain
He bears the guilt of man's proclaim

I see my sister, brother
I see the greed for more
The legal kill we ignore

We do what we wanna do
And say what we wanna say
But still look the other way

I see a world of madness
Environmental rape
Face the consistency too late
Oh you're gonna die, oh you're gonna die

You change if you wanna change
And pray if you wanna pray
So why look the other way

Violation
Devestation
Termination
The last of man's device
Violation
