Verse:

It all began when my mother died
And my father raped me every night
I was on my own, all alone
From this moment on my life was gone
An inner secure I never had
With all my feelings I become mad
A new future is a unreachable dream
I don't know what to do and I scream

Chorus: I want die

Yes I want die

I want die

Die now Verse: The story went on I began to take drugs

I hate all people and they suck

Everyone left me except my stuff

The next stupid time got so rough

An inner secure I never had

With all my feelings I become mad

A new future is a unreachable dream

I don't know what to do and I scream Chorus: I want
die

Yes I want die

I want die

Die now Verse: Everytime I walked through the city

But here is nothing I found pretty

I shot some people on the street

I like to see how they bleed

An inner secure I never had

With all my feelings I become mad

A new future is a unreachable dream

I don't know what to do and I scream Chorus: I want
die

Yes I want die

I want die

Die now
