I'm here to save you from loneliness
Long distance phone calls
I'm right beside you

I'm here to talk to you
Even if i sometimes just don't talk...
Just staring at you

Those pics you took...
I must say i did not like'em at all
They cannot see you

I know you have to show everyone that you're not
feeling alright
But don't just blame it on me!

'cause if i am your wolverine
Then you're supposed to be jean grey
But sorry, honey... phoenixes don't die!
So stop living this misery
Pack your bags and leave with me
And let me tell the world that now you're mine!

Don't you dare to die now in my hands (arms)
My suicide girl.
