"Victoria Indie Queen"

Visit "[Victoria Indie Queen](#)" on MotoLyrics.com

She used to be emo
But now she's into old-school hardcore
And skinny men playing in indie bands
Are not her type at all

I used to know where she goes
After having her daily fashion class
But now she's got new friends with lots of pot
They're taking her from me...

And her hair is not short anymore
I'll be there if you call me... remember those old times

A movie starring steven seagal
Eating chocolate-flavoured pop corn
You've never observed how perfect you were
Listening to fresno

And now i see you drunk and wasted
Rytalin in one hand, the other searching for friends
That's when you see, all you needed was me
... always there for you.

Victoria... she goes to wherever there are party lights
Sometimes she doesn't see sometimes she's hurting
me
With her damn punk attitude
Victoria... she loves to walk alone across gun-fights
But there has never been a prettier indie queen
This throne was all set for you
