Well I didn't go to Washington Instead I swept the floor
the only things I've ever done you can't see anymore
I knew there would be magic
but I turned at the last chance
These idle hands are staying scared of making any
plans

Cause the fire needed tending and the windows are so
wide
Sometimes I feel I'm in the world when I'm looking from
inside
I went back down the snow made a path to the road
and think of the long ride
Well I hope you don't need snow times to the muscle in
your mind (???)

Ba-di-da-di-da-da La-la-le-la bum
Da-di-da-di-da La-la-le-la
x2

Cause I didn't go
I said no
Said no when you asked
and the only things I'm feeling are the empty minutes
past
Well the sun came up and moved around
It's down behind a cloud
I didn't go to Washington and you'll be almost there by
now

SOLO

Almost there by now

Da-di-da-di-da-da La-la-le-la
Ba-di-da-da-di-da-di-da La-la-le-la bum
x2
