Always the war on nineteeneightythree
This is the world of today ooh ooh
In our mind there is only the money
And there is nothing for you
Ten hours work, no flowers in the mind
The life runs without happiness ooh ooh
Everyday dreams to go to a better life
But the remain only dreams

Chorus:

You are the children your life will be very hard
You are the children you're singing everyday

To have a friend explain your little problems
Can you say now to have it ooh ooh
Sometimes you hope it's only an illusion
Don't hope it's better so
But children power win, I am sure
Will se sweet lover for us ooh ooh
Your fantasy will find new nice colours
But now it's time to go

Chorus:

You are the children your life will be very hard
You are the children you're singing everyday
