[Talking]

Geeked-Up Records nigga  
Hustler Beats on the track  
Master-Boyz right here  
Do you respect motherland? This is the answer of your  
question... Let's Go!

[Verse]

Speakin' mind, speakin' mine  
Epileptic flow, pity goin' for the low  
Everybody gonna know  
Why they callin' me negro  
Fed up wit' em fake ass liars  
Talkin' loud 'bout poverty but burstin' homes to fire  
Like offerin' some flowers  
To a lady out the shower  
And they can't deny it  
But they won't allow it  
Where the fuck we livin' at?  
Do we deserve all this crap?  
Dancin' brazilians, naked at the beach  
Blowin' money like we're rich  
Not mad, not pissed but fuckin' disappointed  
Wanna slap em each, wanna strap em each  
You see dirty kids askin' coins to the streets  
They get slaps, they get stabbed  
They get pushed to the bush  
Growin' up no choice but the kush  
Some accuse grannies and pappies for their toss  
But 99 P's on that earth caused that loss  
Some tryna forget sayin' that they the boss  
Started from the bottom of the thing, check how much  
it's clear  
You'll see the well ain't that near  
The taller's the queen of queers  
Poisoned everythin' all around we sufferin'  
But that motherfucka took it for himself  
Raisin' funds on our land like a thief  
Secretly known as a bitchy gay milf  
Cashed out that lot called it a gift  
Never asked but he did, all this indeed

Damn it!  
Old mommas cry but they ain't heard  
Broken roads scream but they ain't heard  
Healthy hopes walk but they all burnt  
Mr. Stupid Head, what's next to serve?  
Fuck!  
Ain't afraid of usin' my toilet mouth  
Spittin' what's true in our House  
Country of felicity, shit, kiss my ass  
We got brains but they ditch 'em task  
I can't lose my test  
Because I ain't the rest  
They force us to wear a mask  
But we all know how look our past

[Talking]  
They don't wanna give money to people, the needy  
people  
They don't wanna help people  
But they spend a lot of money for naked bitches comin'  
in our beach  
I fuck all the niggaz who approve all they do, nigga  
The country is on fire
