Blow's been dealt and is taken its toll  
Listless, I stumble like a drunk in the cold  
Questioning foundations and a hope I took for granted  
See my soul choked by the rope of a slanted view of  
reality, so it seems  
And maybe I've been living in some childish day  
dream  
As not but dust in motion, insignificant drop in an  
endless ocean

So rend the veil, the shroud that clouds my eyes  
I want to see you and every fiber of my being is longing  
for you, you  
So rend the veil, the shroud that clouds my eyes  
I want to see you and every fiber of my being is longing  
for you, you

Cut off at the knees and gasping for breath  
Grieving for my hope as it totters on the brink of death  
Watching the sun fade and run down ears go deaf to  
The ancient thundering Sound of creations singing I'm  
clinging  
So tight to these questions I can't hear its chorus  
ringing like some Perpetual dancer I'm running and  
spinning in search of the answers

So rend the veil, the shroud that clouds my eyes  
I want to see you and every fiber of my being is longing  
for you, you  
So rend the veil, the shroud that clouds my eyes  
I want to see you and every fiber of my being is longing  
for you, you

In this fog of pain, creation plays its strain  
Wind breathes one name, star shines one fame  
In this fog of pain, creation plays its strain  
Wind breathes one name, star shines one fame  
In this fog of pain, creation plays its strain  
Wind breathes one name, star shines one fame  
In this fog of pain, creation plays its strain  
Wind breathes one name, star shines one fame

So rend the veil, the shroud that clouds my eyes  
I want to see you and every fiber of my being is longing  
for you, you  
So rend the veil, the shroud that clouds my eyes  
I want to see you and every fiber of my being is longing  
for you, you
