I open my heart
Embracing Your change
On You I fix my gaze
I feel the heat of
Your lamp on my feet
Guiding my way

(Chorus:)

Why do I worry? Why do I worry about tomorrow?
When You are the one who holds my future in Your
hands
Faithful Father I surrender all to You
All my love and my devotion
All to you

Following peace completely fulfilled
I'm confidently still
Through king or stranger
You'll broaden my path
As I walk in Your will, so

(Chorus)

My motives and intentions
To You
My trust and my affection to You Lord,
All for You

Faithful Father I surrender all to You
All my love and my devotion
All to you
I surrender all to You
I surrender all to You
