I don't want You just because I need You
I don't want You just because You make my life
complete
I don't want You in light of what You have for me
I want you simply because...

(Chorus:)

More than anyone else
I love You more
I love You more
Than life itself
I want You more
I want You more

I know that You're the one that I need
I know that You're the one that makes my life complete
I know that great things are in store for me
But I want you simply because...

(Chorus)

I'm searching, longing, willing and wanting
You leave me needing more
Hold me, make me, change me, take me
I'm completely Yours

(Chorus)

I want You more
I need You more
I love You
I love You
I want You more
I need You more
I love You
I love You
