

Sarah Johns "Touch Me"

Visit "[Touch Me](#)" on MotoLyrics.com

I remember how we used to be
It's been so long since you looked at me
Like I was a woman

Tell me you want me right now
Say I'm the one thing you can't live without
Honey, I wanna tremble, I wanna lose my breath
And then fall asleep on your chest

Touch me baby, touch me
Kiss every inch of my body
Baby, love me like you love me
Whisper words I ain't heard from you lately
I wanna feel like I used to back when you used to touch
me

Don't talk just turn out the lights
Do the things only you can do right
Baby, we're fallin' apart
Let's fall back in, I wanna make love again

Touch me baby, touch me
Kiss every inch of my body
Baby, love me like you love me
Whisper words I ain't heard from you lately
I wanna feel like I used to back when you used to touch
me

Baby, love me like you love me
Whisper words I ain't heard from you, lately
I wanna feel like I used to back when you used to touch
me
Oh baby, love me
