I believe in freedom
I believe in truth
I believe in true love
I believe in You

As strong as a mountain
As deep as the sea
Your love surrounds me
I want to be right where you are
'cause I'm who I want to be

(Chorus:)
When I'm with You
The whole world disappears
I have no fear
When I'm with You
I am complete
You're the only one for me

How cheaply the words they come
When it comes to love
In a world that knows no commitment
I give You my soul

As swift as an arrow
As soft as a song
Your love, it calls to me, yeah
And carries me to another place deep inside

(Chorus)
