f/ Killa Sin, La the Darkman

"Hav Mercy.."

[Intro: Killa Sin (La the Darkman)]

(Yeah) Yeah, yeah, so be it

Another year down (uh), Killa Sin

Killa Sin, Allah Mathematics (The Darkman)

(La the Darkman) Word up, another Wu Banga (Yeah)

Check it out though, yo, yo.

[Killa Sin]

Lord forgive me, please hear these cries

Please prepare me for the loneliness the world provide

I need you dearly, to you I speak through the heart of a child

Sincerely hope you listenin', I'm hurtin' inside

You got so many of us flirtin' with pride, I'm workin' with time

Tryin' to a better life provide a life which rightfully mine

But circumstances and these petty fights is snipin' the mind

How can I man so insightful be subjected to the questions?

All the wise, I acknowledge God if wisdom applied

Most understand what I visualize, while love is

criticized

My life, they make it so spiteful that they pity mine

You know I'll circle the globe for brothers fifty times

[Chorus x2: La the Darkman]

Hav Mercy on me, my wisdom, my seeds

Hav Mercy on hustlers, thugs and thieves

Hav Mercy on the poor tryin' to survive

Hav Mercy on inmates fightin' to stay alive

[Killa Sin]

It's you I ask for forgiveness, you gave me the  
priveledge to live

With two beautiful souls who had a vision

So what we had to live in The Projects

There's more lessons to learn, persuaded, gave birth  
to more concepts

The main thing, we had each other, together, the  
family

Moms, Pops, two brothers, complete, it's all I need

But suddenly you had another vision for me to see

And understandin' that so many youngsters to believe

Moms sick of Pops shittin', now he's ready to leave

Our Pops tired of the arguin', he feel he can't breathe

But the whole time, I couldn't help with feelin' the  
speed

And to this day I feel the same way to a certain degree

So Lord please Hav Mercy on me

For all the anger I gave to my Queen, I'm now safe for  
the beast

And even though I have a tendency to slip when I speak

I pray for my love and strength to keep my cipher  
complete

Because now I'm the foundation, pacin'

Thinkin' ironically, I'm in the same situation

Damn.. Ironically I'm in the same situation

[Chorus x2]

[Killa Sin]

You see God, all I'm sayin' is this

That if at any time you need me I'll be there in a split

Just place ya hand on my shoulder, man, and give me a  
lift

And take my last breath away with ya heavenly mist

So if you have to I'd've blast out my enemy's fist

But it's alright, I'm prepared for that day

Nah, I'm not sayin' innocent

But until I deminish I'ma fight for what I write and I say

All givin', to my Grand Earth Ruby, that I miss her to  
death

And I'll give her anything for a kiss on the head

Before I go may I ask you for one more request?

And Lord please Hav Mercy on everyone else

[Chorus x2]

[Outro: La the Darkman]

Yeah, yeah, uh-huh

Allah Mathematics

Tomorrow.. yeah

Killa Sin, La the Darkman
