I touch the fire and it freezes me  
I look into it and it's black  
Why can't I feel? My skin should crack and peel  
I want the fire back

Now through the smoke she calls to me  
To make my way across the flame  
To save the day, or maybe melt away  
I guess it's all the same

So I will walk through the fire  
'Cause where else can I turn?  
I will walk through the fire, and let it

The torch I bear is scorchin' me  
Buffy's laughin' I've no doubt  
I hope she fries, I'm free if that bitch dies  
I'd better help her out

'Cause she is drawn to the fire  
Some people never learn  
(She will never learn)  
And she will walk through the fire and let it

Will this do a thing to change her? Am I leaving Dawn in  
danger?  
Is my Slayer too far gone to care?  
What if Buffy can't defeat it? Beady Eyes is right, we're  
needed  
Or we could just sit around and glare

We'll see it through, it's what we're always here to do  
So we will walk though the fire

So one by one, they turn from me  
I guess my friends can't face the cold  
(What can't we face?)  
But why I froze, not one among them knows  
(If we're together)  
And never can be told

She came from the grave much graver

(So one by one, they come to me)  
First he'll kill her, then I'll save her  
(The distant redness as their guide)  
Everything is turning out so dark

Going through the motions  
(Ain't what they had in mind)  
No I'll save her, then I'll kill her  
I think this line's mostly filler  
What's it going to take to strike a spark?  
(It's what they have inside)

These endless days are finally ending in a blaze  
And we are caught in the fire  
The point of no return  
So we will walk through the fire  
And let it burn, let it burn  
Let it burn, let it burn
