Turn around, that's the time of our love  
That is never enough  
That is all that we were receiving

You will not ever find me again  
Never lose me like then  
I will not ever happen to see you

Turn around, that's the time of goodbyes  
Our truth, our lies  
That is all that we'll be regretting

You will not have a chance to betray  
You won't give me away  
I will not ever let me forget you

I won't let them take over my sense  
Never. no one else  
Never. no one else  
Oh, I swear  
Neither you, neither I can be saved  
If we only forgave  
If we only forgot  
The despair

Turn around, that has happened before  
That is love at your door  
That is all that we were concealing

You will not ever find me again  
Never lose me like then  
You will not ever happen to see me

Turn around, that's the time to forgive  
To exhale and to leave  
If it's not where we both were heading

I will not have a chance to betray  
I won't give you away  
I will not ever let me forget you...

I won't let them take over my sense  
Never. no one else  
Never. no one else  
Oh, I swear  
Neither you, neither I can be saved  
If we only forgave  
If we only forgot  
The despair

Never No-One Else  
Never No-One Else

Never No-One Else  
Never No-One Else
