As I watch the day  
I am so amazed by what you do  
When I close my eyes  
I am mesmerized by thoughts of you

Sometimes, I can disappear  
And let your love surround me  
The little things that I hold, dear  
Are falling down around me

Even now I know this orbit that I'm in  
Is spinning me to you  
I am silenced by the will of my intent  
To only be with you  
Completely lost in you

Every dream I hide  
Give them wings so they can fly to you  
As I wait to find  
All you have in mind for me to be

My ambitions fade away  
They offer no resistance  
Take me up into your space  
Into your existence

Even now I know this orbit that I'm in  
Is spinning me to you  
I am silenced by the will of my intent  
To only be with you  
Completely lost in you

It is clear to me  
I've nowhere to be without you, it's true  
You're my gravity and I could never doubt you  
I'm lost in you

Even now I know this orbit that I'm in  
Is spinning me to you  
I am silenced by the will of my intent  
To only be with you

Even now I know this orbit that I'm in  
Is spinning me to you  
I am silenced by the will of my intent  
To only be with you

Even now I know this orbit that I'm in  
Is spinning me to you  
I am silenced by the will of my intent  
To only be with you
