"Pure Of Affection"

Morning
What a beautiful morning
We always know that dreams
Never erased by time
We always know that

Time that never enough
And space between us
It will never be enough
It will never be enough
We always wanted something more
We always wanted something more

My inspiration
It's me and you
In this place I can feel the pure of affection
Pure of affection is
What we need

Our conclusions
It's turn on and on
My lady we have to trust the love
My lady we have to trust the love

Fall a sleep
As we drift into a sleep
Together we had a dreams
That never erased by time
We always know that

Show me the love
