Cause it's who I am, another stone in the sky
Disappearing to the place that I hide
If suddenly I had the chance to be free
I'd part the ocean so that all could see me, yeah
Such a way, Such a way to die
Hold me closely and feel how I just shake
Fever stripped me now there's reasons I hide
I'm always shaking cause the worlds got me sick
How long before the truth means more then this
And how long before, truth means more
It's who I am, where have you been
It's who I am, where have you been
Where have you been, where have you been
