

Matthew Hyland**"Not Afraid"**

Visit "[Not Afraid](#)" on MotoLyrics.com

I've got a feeling and I can't turn it off
I've got a feeling and I can't turn it off
I've got a feeling and I just can't turn it off
And that's my choice
I've got a feeling and I just can't turn it off
I could never leave her in someone elses eyes
I could never ever ever get this right
Oh now look what I've done here, no longer afraid
Oh now look what we've done here, we're not afraid
I've got a feeling and I just can't turn it off
And that's my choice
I've got a feeling and I just can't turn it off
I got your message today
On the way to my place
That says you work late
Fuck that, I need to see your face
I could never leave her in someone elses eyes
I could never ever ever get this right
Oh now look what I've done here, no longer afraid
Oh now look what we've done here, we're not afraid
I could never leave her in someone elses eyes
I could never ever ever get this right
I've got a feeling and I just can't turn it off
And that's my choice
I've got a feeling and I just can't turn it off
