The sky is blue and high above  
The moon was new and so is love  
This eager heart of mine is singing  
Lover come back to me

You came at last, that day is past  
The day is past, you've gone away  
This aching heart of mine is singing  
Lover come back to me

I remember every little thing  
You used to do, I'm so lonely  
Every road I walk along  
I walk along with you  
No wonder I am so lonely

The sky is blue, the night is cold  
The moon is new but love is old  
And while I'm waiting here  
This heart of mine is singing  
Lover come back to me

I remember every little thing  
You used to do, I'm so lonely  
Every road I walk along  
I walk along with you  
No wonder I am so lonely

The sky is blue, the night is cold  
The moon is new but love is old  
And while I'm waiting here  
This heart of mine is singing  
Lover come back, lover come back  
Lover come back to me
