Somewhere there has to be  
The other half of me, the other half of me  
I've yet to meet

One special someone  
Whose heart has a similar leaning  
And if she were right for me  
Day and night for me would have meaning

The other half of me, that unknown quantity  
That unseen destiny could make me complete  
Is there a chart for the heart or a graph?

Will we meet on the street with a laugh?  
Will we know one another  
If I ever meet my other half?  
The other half of me
