"Death And Light"

I'm all ready
I hope you're ready
It's happened before
It happened at last
Watched your demise
You slipped away fast

Welcome to nowhere
This is your new home
Evading the pain
lost sight of your way
Got stuck in a con
Got stuck in the game
There's no turning back now
Sunsets in the morning

I've seen death
I've seen light
I've seen trouble through the night
Babe Don't go

No you're not dreaming
Look towards sky now
The seals have broke
The Trumpets have sound
The oceans are dry
Darkness inbound
This is the end now
This is the end now
