"Everyone Falls"

Visit "[Everyone Falls](#)" on MotoLyrics.com

You, you shake up everything
Take what's good and throw it all away
Darkness, follows you everywhere
You don't even know, you think it's the light

Ohhhh this is the last time
this is the last time oh I'll never change my mind
Ohhhh this is the last time
this is the end my friend, I'm through taking your side

Dreams confuse reality, the lines are blurred
Truth long snuffed out
Ruse you wear it as your robe
Cold lonely man, clothes deceit with lies
