"In The Air"

When Im thinking about you I feel all alone
Feel all alone, yeah, I think I'm alone
Take a look in the mirror and what do you see
You're in this alone, yeah, you're in it alone

I want you now
Come close just once

I can't do this alone!

Look up in the sky, what do you see?
I canS see you, yeah but you can see me
Crossin the l's and dottin' the t's
It should have been we, but still its just me

I want you now
Come close just once

Oh I wish that you could see something beautiful in me
I will change yes I will, Will you stay? Say you will.
