"Look Into The Sun"

Visit "[Look Into The Sun](#)" on MotoLyrics.com

Take a walk outside
You know you're gonna find
You don't fit in here anymore

Take a look around
at the world you've found
you find it beautiful
yeah it is beautiful

Stop and say hello
To those who from you'll steal
You find them beautiful
Still you think they've been misinformed

Don't run, not this time
There's no need to close your eyes
Hold tight, it's safer now
We've reached the final bout

Oh my children won't you listen, look up to the sun
