

## Sarcofago "Shave Your Head"

Visit "[Shave Your Head](#)" on [MotoLyrics.com](http://MotoLyrics.com)

All these yars passed,  
had showed us the same facts.  
Drugs and booze are giving the sign  
to the life of millions of young souls,  
that are rotting their brains,  
with cocaine entering up in their noses.

Long hairs is not more,  
a mark of the braves.  
It became just a fashion,  
and had lost it's anger.

Alcohol in their guts, tatooing their arms.  
The orgy goes night after night,  
acting like bastards, to show their uprising.  
Stop this while you still got time!!!  
Drugs will not make better your stupid life.  
Long hair will not give you force to live.  
Tatooing your ass will not turn you into batman.  
Alcohol is not the chemistry of happiness.

All these yars passed,  
had showed us the same facts.  
Drugs and booze are giving the sign  
to the life of millions of young souls,  
that are rotting their brains,  
with cocaine entering up in their noses.

Alcohol in their guts, tatooing their arms,  
the orgy goes night after night.  
Acting like bastards to show their uprising.  
Stop this while you still got time.

Put some kind of sence, in your empty souls.  
Stop to waste your life with void.  
I have shaved my hair and my hate, had increased.

This way of life will just destroy you!!!
