Let's quit our jobs and run away  
Forget the news we heard today  
And turn our backs on what they say  
Cause I am still a kid and  
Don't need direction how to live.

Well, they say "kid, you gotta grow up  
Cause having fun won't earn a buck  
When summer ends you're out of luck  
Turn that music down, your hair's too long,  
So shut up kid you're always wrong!"

Stop telling me to act my age  
Time's not a personality cage  
And growing old won't get you saved  
So I think I'll take my time cause  
Being young sure ain't a crime

Take my time  
Doing just fine  
Living every day
