Life. Mysterious life.  
We're moving around, dancing the rythm om life.

Time. Mysterious time.  
We're counting the hours and days to the end of our  
time.

And we're feeling the change and we don't know why,  
Choose one direction, just one for a time.

Don't say I'm thinking too much if you see what's  
behind.

And these are mysterious times...  
Mysterious times...  
For this moment I feel like we live in mysterious times...  
If you see what's behind, these are mysterious times...

Soul. I feel my soul.  
For this moment nobody can stop me from flying so  
high.

Real. Nothing is real.  
In a world of illusion you only see what you feel.

And we're feeling the change and we don't know why,  
Choose one direction, just one for a time.

Don't say I'm thinking too much if you see what's  
behind.

And these are mysterious times...  
Mysterious times...  
For this moment I feel like we live in mysterious times...  
If you see what's behind, these are mysterious times...  
If you see what's behind, these are mysterious times...
