What happened on the way to heaven
I thought that we've been through
never ever I felt so strange
and I see the same with you

what in the world can make me
feel like I used to do
I'm starting to understand
And I'm thinking it over and over and over

I want it
I need it
I want my own
I want my own peace of mind

I want it
Cause I need it
I want my own
I want my own peace of mind

What happened to my dream of silence
that was about to come true
never ever I felt so sad
and I see the same with you

I'm lost in a wishful thinking
'bout a place for me and you'
I'm starting to dream again
And I'm thinking it over and over and over

I want it
I need it
I want my own
I want my own peace of mind

I want it
Cause I need it
I want my own
I want my own peace of mind
