"Stay"

Visit "Stay" on MotoLyrics.com

I had a dream last night
You were there
You held my hand so tight
I thought I'd just died
Do you remember
When we used to have so much fun?
I used to cry sometimes
Those days are gone
Do you remember?

I wanna go back to
Back to the days when I needed
A little more fun
When I believed I
I believed I could fly so high
Through the clouds

Tainted these words
If just for one day
Tainted these words
I need you to stay

Stay
Come on and stay
Stay
Stay

Turning back time to
Times we may never take
Under the sun
When I believed I
I believed I could fly so high
Through the clouds

Tainted these words
If just for one day
Tainted these words
I need you to stay

Stay
Come on and stay

Stay
Stay

I had a dream last night...
