There she goes walking down the stairs, lipsticks on  
and she's ready to go  
She slows down in hesitation, but I let her know she's  
beautiful.but tonight this town is ours.

They'll never bring me down down hold me down. We'll  
ride around and sing sing sing outloud  
We'll runaway, sail to the coast and I'll spend the night.  
They're never gonna slow slow slow us down, we'll light  
a match and burn this city down  
This is my heart, this is my soul and I'll dance the night  
with the girl I love the most.

I don't care if we ever leave, it's everything a dream  
could be.  
Her hands around my neck, my hands are at her waist,  
as all of our plans fall into place  
But tonight this town is ours.

They'll never bring me down down hold me down. We'll  
ride around and sing sing sing outloud  
We'll runaway, sail to the coast and I'll spend the night.  
They're never gonna slow slow slow us down, we'll light  
a match and burn this city down  
This is my heart, this is my soul and I'll dance the night  
with the girl I love the most.

Oh baby hold on tight, lets make this right.

They'll never bring me down down hold me down. We'll  
ride around and sing sing sing outloud  
We'll runaway, sail to the coast and I'll spend the night.  
They're never gonna slow slow slow us down, we'll light  
a match and burn this city down  
This is my heart, this is my soul and I'll dance the night  
with the girl I love the most.
