Hook

Juelz Santana:

We stay G'd up, we make these bucks, we make things
jump

No thanks to you

We blaze, weed up, we invade these clubs, we make
things jump

No thanks to you

From the beat to the boogie, to the street to the hoody

This is gangsta shit, gangsta shit

Baby get down to the beat, and just boogie to the beat

Shake your tooshy, if you like gangsta shit

Verse 1

Mayhem:

Cali slugs will clap your minds on the road (Calico)

I get Cali love like Pac when he signed to Tha Row
(There they go)

I get it poppin' in the Cities Of Angels

Plus (plus) I be Bloodin', you know, shuttin' the
angeldust

Yeah, you say you slang 'caine, you ain't flippin' bricks

Only time you niggaz gangbang is when you hittin'
chicks

We ridin' on blocks with riders on blocks

I lick shots, expire your top

(This ain't a game homie)

You don't even fire at cops

We'll turn your strip to the riot it was

(But ain't a thing on me)

I weave Coupes, chicks say he's really cute

Gucci Chucks matching my bucket, matching my Dickie
suit

Where I'm from, ain't a game where they sold raw

Niggaz ready to die for the 'caine like they old dog

We fast to blast and off the law

We got the game like we Aftermath

It's Dipset and

Verse 2

Mega:

Shout out the Brims, the Denver Lanes, and Figoroga

To Watts down to Athens part, them niggaz know us

Diplomats run streets, massacre

With more shotguns than a frontseat passenger

For them 8 stacks we will squeeze 'til you melt

Spray gats like "Ay, wax, you need you some help?"

I'm stuntin' like I'm rich, some'n like a Dip

Now I got your bitch, your sis, your mother on my dick

You slicker than us (Sizzurp) sippin' it up

Wrist fridged like a chick who ain't giving it up (No)

But in da club (What) they show us love (Oh)

I roll with Bloods holdin' slugs just because (Yes)

And overseas we run them streets

Since the Set hooked up with these London Gs

Strover are switchin', loads of women, I play hard

Hoes are strippin' in pole positions like race cars

Ah
