

S.A.S. "I Don't Need You"

Visit "[I Don't Need You](#)" on MotoLyrics.com

You never thought that I could live my life without you
Did you?
Some men fall in love, others hang onto friends
Not me
Lovers never stay true, friends just get in the way
Fuck them
Everything that I've done, I did it all by myself
That's why
I don't need you hanging around
All that you do is slow me down

You say you want to know me, but I don't want to know
you
Go die
Everywhere that I go, you just get in the way
Fuck off
You think we've always been friends, I don't care about
you
Too bad
People just make me sick, they never leave me alone
I want
No more lovers, no more brothers
All I want is no more others
