I stopped by your house just the other day
Caught just a glimpse as you drove away
You looked really cool with your hair that way
(Hair that way, hair that way)

I tried to pretend that you didn't see
But I know that you did cause you looked at me
Ain't it strange how we deal with reality
(With reality, with reality, with reality)

Don't you forget me
No, not this way
I still believe straight from the heart
Don't you forget me
I thought you'd stay
How can you let this fall apart

I don't understand where you're coming from
You say to your friends that there's something wrong
Does it feel like I'm coming on too strong
(On too strong) yeah (on too strong)

The walls that you build won't get in my way
I don't care what you do, I can climb all day
Give me time just to hear what I have to say, yeah
(I have to say, I have to say, I have to say)

Don't you forget me
No, not this way
I still believe straight from the heart
Don't you forget me
I thought you'd stay
How can you let this fall apart
(Fall apart, fall apart, fall apart)

I stopped by your house just the other day
Caught just a glimpse as you drove away
You looked really cool with your hair that way, yeah
(Your hair that way, your hair that way)

I tried to pretend that you didn't see

But I know that you did cause you looked at me
Strange how we deal with reality

Don't you forget me
No, not this way
I still believe straight from the heart
Don't you forget me
I thought you'd stay
How can you let this fall apart

Don't you, you forget (don't you forget)
Don't you, you forget (don't you forget me, yeah, no)
Don't you, you forget (not this way, hey)
Don't you, you forget (oh, yeah, noâ€¦baby)
Don't you, you forget (don't you forget me)
Don't you, you forget (don't you forget me, yeah)
Don't you, you forget (ahâ€¦)
Don't you, you forget (don't you let this fall apart)
Fall apart, fall apart
