"Love Is All Around"

Visit "[Love Is All Around](#)" on MotoLyrics.com

It's that feeling again
That's making me high
Like floating on air
Reaching out for the sky

That feeling again
When two hearts collide
It comes deep from within
And your soul's open wide

Bridge
It's like you're caught in free fall
With no cares at all
Look out then you can see
It's as high as you get
Open your heart and let it be

Chorus
Love is all around
Love is all around
Look at what we found
Love is all around

Chorus

It's that feeling again
And you can't hold it in, yeah
As you open your eyes
Your head starts to spin

Ooh, that feeling again
When you don't have to try
It's that ten out of ten
That's so hard to describe

Bridge

Love is all around (it don't get any better than this)
Love is all around (it don't get any better than this)
Look at what we found (it don't get any better than this)
Love is all around (it don't get any better than this)

Love is all around (it don't get any better than this)
Love is all around (it don't get any better than this)
Look at what we found (it don't get any better than this)
Love is all around (it don't get any better than this)

(Ahê!) I can't describe what
Makes me feel that way
(Ahê!) no, you can't fight it
Just let it happen naturally
(Ahê!ahê!)
Just let it happen naturally (ahê!)

It don't get any better than this (oh, oh)
It don't get any better than this
It don't (what we found) get any better than this
(Love is all around)
It don't get any better than this

(Love is all around)
It don't get any better than this (love is all around)
It don't get any better than this
(Look at what we found, what we found)
It don't get any better than this
(Love is all around, oh, love around)
It don't get any better than this

(Love is all around)
It don't get any better than this (love is all around,
around)
It don't get any better than this
(Look at what we found, what we found)
It don't get any better than this
(Love is all around, oh, love is all around)
It don't get any better than this

Ahê!
