Ain't no love, with people like you around
Ain't no love, with people like you around

You wrecking my existence
You got me living on a minimum
You've got me in your dungeons so cold
Talking 'bout justice, but is just us down there
Ain't no peace, with people like you around
Ain't no peace, with people like you around

You coming in from the cold
Your pocket full of bad ammunition
Aiming for I soul

But your aiming in the wrong direction
Ain't no love, with people like you around
Ain't no love, with people like you around

Times are getting harder
Some say that it dreader than dread
Times are getting dreader
Some say that it tougher than lead
Ain't no love, with people like you around
Ain't no love, with people like you around

If you could see yourself
You'd fall back on the shelf and hide
The way you make me feel unreal, so run, run, run
If you could see yourself
You'd fall back on the shelf

You coming in from the cold
Your pocket full of bad ammunition
Aiming for my soul
But your aiming in the wrong direction

Ain't no love
