Roots man, Roots man, where do you come from?  
Roots man, Roots man, where do you come from?  
I wasn't born in no lunar orbit no, no, no, no!  
My forefathers wasn't born in no space ship no, no, no,  
no!  
Yet you treat I like I come from Mars  
I want to know why  
when I and I man born right ya so  
Space man, Space man, where do you come from?

I wasn't born on no far off planet no, no, no, no!  
My forefathers wasn't born in no space ship no, no, no,  
no!  
Yet you treat I like I come from Mars  
I want to know why  
when I and I man born right ya so  
Space man, Space man, where do you come from?

Chinaman, Chinaman, where do you come from?  
Indian, Indian, where do you come from?  
Roots man, Roots man, where do you come from?  
Rootsy, Rootsy, Roots man, where do you come from?  
I really want to know now, where do you come from?
