Going down down again  
Every day the same again  
Every day dragged through the gates  
The damned in the rain

In the rain the offices  
Every day the same again  
Every day dragged through the gates  
The damned in the rain

Gone for them and the money men  
Going down (down again)  
Dragged through the gates  
The damned in the rain  
Every day dragged though the gates  
The damned in the rain

In the rain the offices  
Every day (dragged again)  
Dragged through the gates  
The damned in the rain
