"Take The Shortest Way With The Men Of Violence"

When the men of violence can't get their way
When their arguments cut the wise
They reach for the gun to see what brute force can do
When their persuasion has failed

These sinister and secret men
Let's let them know that we've had enough
Of them

[unintelligible]

In the interests of the minority
They wreck the lives of the majority

In the interests of the minority
They wreck the lives of the majority
