We don't believe in violence
Those who use guns to kill in cold blood
They deserve all they get
They deserve all they ask for

So when you catch them
Pump them all full of lead
Tear them limb from limb
It will be okay

When you catch them
Pump them all full of lead
Tear them limb from limb
For the law will be on your side

All you Irish mates
We don't hold with torture
Or kidnapping innocent citizens
Unless the police or the SAS do it

So when you catch them
Pump them all full of lead
Tear them limb from limb
It will be okay

When you catch them
Pump them all full of lead
Tear them limb from limb
For the law will be on your side

So when you catch them
Pump them all full of lead
Tear them limb from limb
It will be okay

When you catch them
Pump them all full of lead
Tear them limb from limb
For the law will be on your side
