Music that could take you and your mind to a new steer  
These are chiming chords to take us both away from  
here

The beat of a drum slips off your head  
The bass is shaking off your cares

On it goes you're carried away on a sea of sound  
On and on to an ecstasy on a sea of sound  
The beat of a drum slips off your head  
The bass is shaking off your cares

Up up and away on the beautiful tune  
Up up and away on the beautiful tune

Image burns and silence is filled to a new pitch  
Cymbals crash with frantic guitars you are lucid  
The beat of a drum slips off your head  
The bass is shaking off your cares
