I feel so different , I feel so new
All I want to say the reason is you
Take my pain away
When you hold my hands
Hold me close
and I'm melting away
When we kiss it's another birthday
As long as I have you by my side
You and me we can whether dissolved
As long as I have you by my side
You and me
Me and you
We can have
an endless love (3x)
We have endless love, endless love

You and me
Me and you
You and me
We have an endless love
endless love (4x)
Me and you
You and me
Me and you
You and me
Me and you
You and me
