Everybody's vibing together,
Everybody's down on the floor
I'm up and i could dance forever
And still i'll come back for more

You won't catch me in front of the tv
Or surfin' on the net for a date
You can do whatever you want to
But i'm stayin out till late

Get down, i wanna get up
Together we go crazy

Monday and i'm still not recovered
Tuesday, i just left it behind
And wednesday and i'm waitin for thursday
Cause i've got friday on my mind

There's no cure for what i am feelin'
It's my way of stayin'alive
Can't u see i'm lost in the music
It's my buzz and i'm gettin' high
