Time moves slower in red
Flowing back to the start
Tell me when, take me there
Tell me how we should part

How has it come to this
Met with a wall of silence
Feels like I've lost my grip
We let it go too far
Sometimes I realize
It's not me
One thing I've yet to find
Has found me
(x2)

Time moves slower in red
Held me back from the start
Are you going nowhere
Now's a good time to part

Wide off the mark we missed
One we were made to find
Wide off the mark we missed
One we were made to find
And now it's come to this
And now it's come to this
And now it's come to this
Now that we've come so far
Sometimes I realize
It's not me
One thing I've yet to find
Has found me
(x2)
